

Solving Complex
Implementation
Problems

2nd Biennial Australian Implementation Conference

Sheraton on the Park, Sydney, Australia | 17 & 18 September 2014

Solving complex implementation problems is the theme of the 2nd Biennial Australian Implementation Conference (AIC 2014) to be held 17 & 18 September 2014 at Sheraton on the Park in Sydney, Australia.

Register now.
Early bird closing 3 August 2014

AIC 2014 aims to advance implementation science, practice, and policy to ensure that more effective implementation will result in better health, education and wellbeing outcomes for individuals and families.

With an impressive line-up of experts in the field, this conference will assist human services sectors working in complex service environments to explore advances in implementation science. The conference will serve as an important forum to report implementation research and evaluation results, share implementation best practices, and advance implementation science and practice. Delegates will also gain the opportunity to build networks and leverage cross-disciplinary learnings.

Who should attend?

Professionals engaged in implementation, including researchers, policy-makers, practitioners, community and organisational leaders from the health, education and human services sectors will benefit from this conference. This event follows on from the widely acclaimed first conference, AIC 2012 in Melbourne, which brought together over 400 participants from these fields.

Book pre-conference workshops on 16 September

- **Professor Gabriele Bammer** "Research integration AND implementation"
- **Dr Melanie Barwick** "Building impact with knowledge translation and implementation: A practical approach to bridging the know-do gap"
- **Dr Allison Metz** "Developing the enabling context for mainstreaming evidence in complex service systems"
- **Dr Aaron Lyon** "User-centered design for psychosocial intervention development and implementation"

Program topics will include

- building a shared understanding of implementation science and practice
- applying what we know from implementation science into practice and policy
- implementation teams and their role
- leadership and leadership's role in implementation
- effective scaling-up service and system wide innovation
- measurements and tools
- evaluations of efforts to effectively implement for positive outcomes for individuals
- policy development and its effective implementation
- implementation capacity building in a practical setting, both within organisations and across multiple layers of a system.

Outstanding presenters include

- **Dr Melanie Barwick**, Health Systems Scientist, Community Health Systems Resource Group, SickKids Hospital, Toronto, Canada
- **Jacquie Brown**, Implementation Specialist, Canada
- **Amanda Cattermole**, Acting Executive Director, Policy Coordination and Governance, Commonwealth Treasury
- **Dr Patricia Chamberlain**, Senior Research Scientist and Science Director, Oregon Social Learning Centre, USA
- **Professor Brian Head**, Program Leader, Policy Analysis, University of Queensland
- **Professor Jo Rycroft-Malone**, Professor of Implementation Research and University Director of Research, Bangor University, UK
- **Professor Sally Redman** AO, CEO, Sax Institute
- **Mr Bryan Samuels**, Executive Director of Chapin Hall University of Chicago, USA
- **Maree Walk**, Chief Executive, Community Services Division, NSW Department of Family and Community Services
- **Clare Ward**, Chief Executive, Families Commission, New Zealand
- **Dr Daniel Whitaker**, Georgia State University, National SafeCare Training and Research Center
- **Dr Fred Wulczyn**, Senior Research Fellow, Chapin Hall, University of Chicago, USA

"The 2012 Australian Implementation Conference completely transformed the way that I think about the work that I do"
Health Coordinator, Sydney
